

# DAKAR PLUS 350

## CONSTRUCTION MATERIAL CUTTING MACHINE

### CONSTRUCTIVE DESIGN

Classic designed to cut various materials such as concrete blocks, clay blocks, marble, granite, and more.

Its welded sheet metal and tubular frame provides an ideal balance of strength and reduced weight, while the removable leg system makes the machine compact and easy to transport and store.

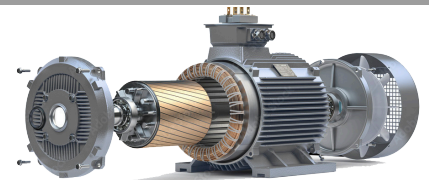

Thanks to its single-phase IE3 high-efficiency motor, it can be easily connected to a standard electrical supply.

### QUICK CONNECTOR

### EMER. STOP

### MOTOR IE3 HIGH EFFICIENCY

#### TECHNICALS SPECS

- Motor: M 230 v (3HP) / T 400 v (4HP)
- Pump 230 v / 50 w
- Blade Ø Ext. max 350 mm
- Shaft Ø 25,4 mm
- Length max corte 550 mm
- High max 1 pasada 100 mm
- Weight 66 Kg
- Dimension L x A x H 1080 x 686 x 1220 mm
- Package L x A x H 1220 x 730 x 840 mm
- Blade not included
- R-6811350 General construction Blade
- R-6861350 Marble Blade
- R-6841350 Granite Blade
- R-6721350 Combi Blade
- D-6501350 Thermos Blade (dry cut)
- D-6508350 Rescue Blade

### CUTTING HEIGHT

The cutting head locks into a specific position, allowing you to make internal cuts in tiles.

The integrated spring system ensures controlled downward cutting movement and a quick return to its initial position.
