CONSTRUCTION DESIGN

- Construction Design: Manufactured with 90% rust-resistant materials, such as aluminum and galvanized steel.
- Capacity: Designed to cut up to 20 cm (7.8") in height, ensuring a perfectly straight and precise cut for materials like clay blocks, concrete, and natural stone.
- Efficiency: Ideal for the Thin-Joint method, reducing installation time by up to 40%.
- Safety & Connectivity: Equipped with an Emergency Stop and Quick Connector

EMERGENCY STOP QUICK CONECTOR

BALI 500 MEKANO

MOTOR POWER:	M 110V (3 HP) / M 230V (3 HP) / T 400V (4 HP)
R.P.M. MOTOR	1777 RPM
PUMP	50w
SHAFT	Ø 25,4
BLADE	Ø 500
CUTTING DEPTH	200 MM
CUTTING LENGTH	480 MM
WEIGHT	89,2 KG
DIMENSION (LXAXH) MM	1214 x 839 x 1374
PACKAGING (LXAXH) MM	1200 x 800 x 540

OPTIONAL ACCESSORIES

R307049000+R101029021
